

As of today, the Village of Kinderhook is requiring that all uses of the Village Square require the submission of an Application for Use of Village Property.

One of the reasons for now requiring that all uses of the Village Square must obtain an approved Application for Use of Village Property is to assure that there is not a conflict with a previously approved Application for Use.

In addition, the same application must be used for any streets in the village.

A link to the Application for Use of Village Property form is below:
